SKILLS SUMMARY

- **Languages:** C, C++, Java, Python
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** MySQL, Git, GitHub, Data Structures and Algorithms, Excel, Power BI
- **Soft Skills:** Leadership, Problem-Solving, Communication, Project Management, Adaptability, Teamwork

PROJECTS

Static Public Transport Analysis of Delhi using GTFS Data | [GITHUB](#)

Apr 2025

- Created a data analysis project using GTFS datasets to explore Delhi's public transport network and identify operational patterns.
- Performed Exploratory Data Analysis (EDA) to examine route popularity, stop density, trip durations, and weekday service distribution.
- Applied data cleaning, feature extraction, and visualization techniques using Python, NumPy, Pandas, Matplotlib, and Seaborn.

Pollution Data Analysis using Excel | [GITHUB](#)

Apr 2025

- Developed an Excel-based project to analyze and visualize air quality data focusing on pollutants like PM2.5 and PM10.
- Cleaned and transformed AQI datasets, using pivot tables, charts, and conditional formatting to uncover seasonal and geographic patterns.
- Applied trendlines and moving averages to forecast pollution levels and support data-driven environmental insights.

Drought Awareness Website | [GITHUB](#)

Oct 2023

- Developed an informative web platform on drought awareness using HTML and CSS, incorporating responsive design and structured layouts for an engaging user experience.
- Created visually appealing sections with animations, icons, and organized content to explain drought causes, impacts, and prevention in a clear and accessible manner.
- Enhanced the website's usability through intuitive navigation, clean typography, and mobile-friendly design to ensure seamless access across different devices.

TRAINING

Data Structures Algorithms Training | [Cipher Schools](#) | [Certificate](#)

Jun 2025 - Jul 2024

- Gained hands-on experience in implementing core algorithms such as sorting, searching, recursion, and basic problem-solving patterns used in real-world applications.
- Practiced competitive programming concepts by optimizing time and space complexity, improving logical thinking, and solving structured coding challenges regularly.
- Learned and applied STL (Standard Template Library) along with key data structures including arrays, linked lists, stacks, queues, trees, and graphs for efficient coding.

CERTIFICATION

- Introduction to Machine Learning | [NPTEL](#)

Oct 2025

ACHIEVEMENT

- Solved 250+ DSA problems across platforms like LeetCode and GeeksforGeeks, strengthening problem-solving and algorithmic thinking skills | LPU

Jul 2025

Position of Responsibility

- Event Manager | Arambh Club, Division of Student Organization
- Vice-President | Zillion Team L&T Club, Centre of Professional Enhancement

Since Feb 2025

Feb 2024 – May 2025

EDUCATION

- **Lovely Professional University**
Bachelor of Technology - Computer Science and Engineering
CGPA: 6.88
- **S.S.S.S Gurukulam**
Intermediate - PCM
Percentage: 65%

Punjab, India

Since Aug 2023

Jharkhand, India

Mar 2021 – Mar 2022
